

DETERMINATION OF NONSIGNIFICANCE

Description of proposal: This proposal is for the clearcut harvest of 35 acres along Jensen Creek. There is no road construction proposed. The IVS triggers are unstable slopes with potential to deliver, and an inner gorge feature. Mitigations are to leave a riparian management zone along Jensen Creek. Slopes with potential to deliver will be grass seeded and straw or slash used to reduce erosion. It is determined that there will be no adverse impacts to public resources.

Proponent: White River Forests, LLC

Location of proposal, including street address, if any: Section 16 and 21 , Township 19 North, Range 8 East, W.M.

Lead agency: Department of Natural Resources

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21c.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.
